

Assignment -3 Bucket And Watson assistant

Student Name	Dhansree R
Student Roll Number	710719205014
Maximum Marks	2 Marks

Questions:

1. Create a Bucket in IBM object storage.

2. Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

Index.html:

```
<!DOCTYPE html>
<html lang="en">
```

```
<head>
<meta charset="UTF-8">
<meta http-equiv="X-UA-Compatible" content="IE=edge">
<meta name="viewport" content="width=device-width, initial-scale=1.0"> <title>Smart Fashion shop
</title>
<style>
body {
background-color: aqua; display: flex;
align-items: center; justify-content: center; flex-direction: column;
}

img {
height: 240px; border-radius: 10px; margin: 10px;
}

}
```

```

</style>
</head>

<body>
<h1>Wellcom To Fashion Store</h1>
<div>

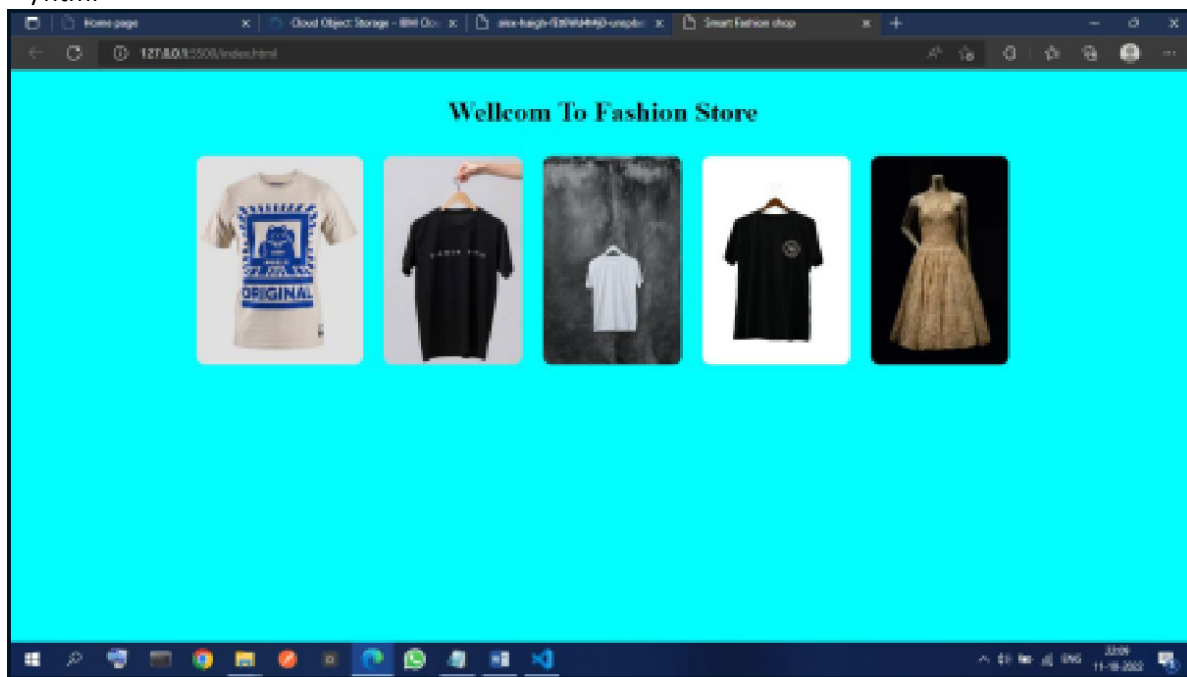

</div>

</body>

</html>

```

3.Upload a css page to the object storage and use the same page in your HTML code.

```
<!DOCTYPE html>
```

```
<html lang="en">
```

```
<head>
<meta charset="UTF-8">
<meta http-equiv="X-UA-Compatible" content="IE=edge">

<link rel="stylesheet" href="https://imagebucket-
vk.s3.ap.cloud-object storage.appdomain.cloud/style.css">

</head>

<body>
<h1>Wellcom To Fashion Store</h1>
<div>

</div>

</body>

</html>
```

Output:-

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chat bot as a assignment.

Url :- [chatbot link](#) <- click

Image-

5 .Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page

The image displays two screenshots of the IBM Watson Assistant console, illustrating the configuration of a conversation flow with 10 steps and conditional logic.

Top Screenshot: Shows the initial setup of the conversation flow. The left pane displays the "Conversation steps" list, and the right pane shows the "Customer starts with:" configuration. The steps are:

- Step 1: "Are you looking for a gift?" with buttons "Yes" and "No".
- Step 2: "Welcome! How can I help you today?" with buttons "Yes" and "No".
- Step 3: "Welcome! For you could I help you today? what type of dress you need?" with a "Yes" button.

The right pane shows the "Customer starts with:" configuration, which includes a text input field for the customer's message and a "Dress" button.

Bottom Screenshot: Shows the configuration of the conversation flow with conditional logic. The left pane displays the "Conversation steps" list, and the right pane shows the "Step 5 is taken" configuration. The steps are:

- Step 1: "Are you looking for a gift?" with buttons "Yes" and "No".
- Step 2: "Welcome! How can I help you today?" with buttons "Yes" and "No".
- Step 3: "Welcome! For you could I help you today? what type of dress you need?" with a "Yes" button.
- Step 4: "This step has ended and will..." with a "Continue" button.
- Step 5: "This step has ended and will..." with a "Continue" button.
- Step 6: "This step has ended and will..." with a "Continue" button.

The right pane shows the "Step 5 is taken" configuration, which includes a "Conditions" section with a condition "If [2. Welcome PL...] is [Chander]" and a "New condition group" button. The "Assistant says" section shows a text input field for the assistant's response.
