Skill / Job Recommender Application

Setting up application environment

1.Create Flask Project

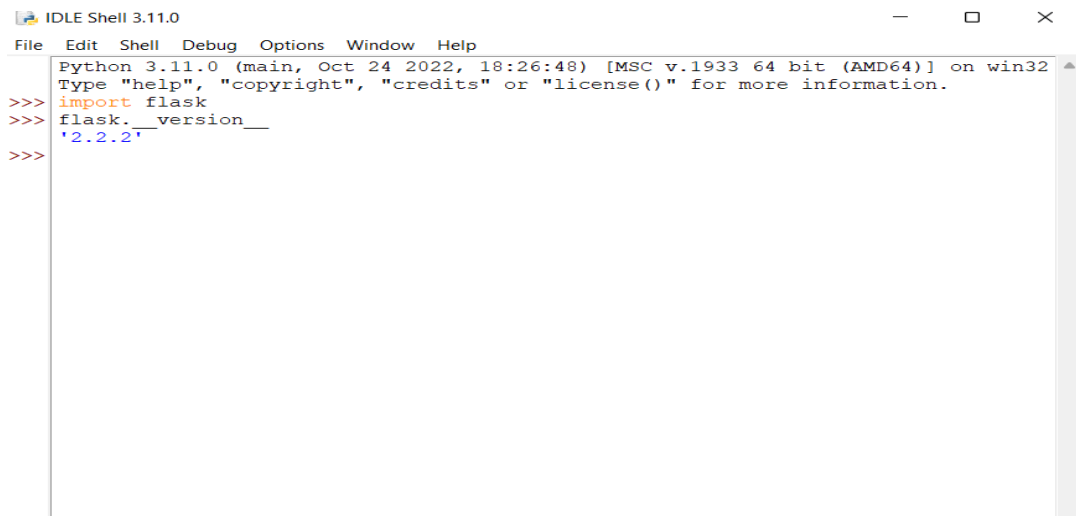

Command Prompt

```
Microsoft Windows [Version 10.0.22000.1098]
(c) Microsoft Corporation. All rights reserved.

C:\Users\welcome>python --version
Python 3.11.0

C:\Users\welcome>pip --version
pip 22.3 from C:\Program Files\Python311\Lib\site-packages\pip (python 3.11)

C:\Users\welcome>py -m flask --version
Python 3.11.0
Flask 2.2.2
Werkzeug 2.2.2
```

A screenshot of the Python IDLE Shell 3.11.0 window. The window has a title bar with the text "IDLE Shell 3.11.0" and standard Windows window controls (minimize, maximize, close). Below the title bar is a menu bar with the following items: File, Edit, Shell, Debug, Options, Window, and Help. The main area of the window is a text editor showing the Python shell's startup message and the execution of two commands. The text is as follows:

```
Python 3.11.0 (main, Oct 24 2022, 18:26:48) [MSC v.1933 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license()" for more information.
>>> import flask
>>> flask.__version__
'2.2.2'
>>>
```

The text is color-coded: "import" is orange, "flask" is blue, and the version string "'2.2.2'" is blue. The prompt characters ">>>" are black. A vertical scrollbar is visible on the right side of the text area.
